
(a) free backbones
mid-plate amplitude a/h
Ω/ω_1
lines: SSM; marks: EPMC
UD
steered
cubic parabola
(b) UD: folds and jumps
SSM, full plate
time int.: up
time int.: down
time integration on a 6-mode modal model, 300 periods per step
drive frequency Ω/ω_1
(c) steered: single-valued
SSM, full plate
time int.: up
time int.: down
time integration on a 6-mode modal model, 300 periods per step
drive frequency Ω/ω_1
